## Over 25 years of Business Immigration Law Experience:

We are uniquely qualified to handle your most complex and sophisticated immigration law matters. We can also provide counsel in all areas of worksite compliance, including H-1B public access file compliance, I-9 audits and electronic verification (E-Verify) requirements. We are also equipped to conduct immigration-related compliance reviews for M&A deals.

"The engagement and satisfaction that our Foreign National associates feel from your team is remarkable. One comment captures it all. "I have worked for many organizations – none have ever provided me this level of partnership - thank you." — HR Director, Fortune 500 Company

## We Simplify the Immigration Process:

We leverage the latest in technology to relieve your team of the many challenges inherent in the immigration process. Here are some of the immediate benefits of our internet-based system:

**Fewer Internal Inquiries From Foreign National Employees.** Our system allows clients (both HR and foreign national employees) simple, 24/7 access to monitor the progress of existing cases in real-time. This substantially reduces the time HR spends on responding to individual case inquiries.

**We Worry About Filing Deadlines So You Don't Have To.** Our system includes a set of reminders so no filing deadlines are overlooked. We can also generate reports to assist you with forecasting monthly and/or quarterly expenditures.

**We Respond To Company Inquiries Within 24 Hours, Guaranteed.**

It is a common complaint from prospective clients that current immigration counsel is not sufficiently responsive. This is not the way we do business - all email and telephone inquiries receive a response within 24 hours, if not the same day, guaranteed.
